

The Georgia Private Pesticide Applicator Exam may be completed online by going to <http://gaprocerts.com>

Here is a four minute how to video for the online testing procedure
<https://vimeo.com/106910814>

Please ensure you have access to a working printer before you begin the exam. You will be required to print a certificate of completion and take to your local County Extension Office with the appropriate identification as required by the department of Agriculture
<http://agr.georgia.gov/verification-of-lawful-presence.aspx>

The lawful presence affidavit needs to be notarized before coming to your County Extension Office.

Your County Extension Office will assist you in your application submission.
